PROFESSIONAL SUMMARY

Data Analyst with hands-on experience in Advanced Excel, Power BI, SQL, and Python, focused on turning raw data into clear, decision-ready dashboards and reports. Builds interactive dashboards for workforce attendance and sales performance that surface trends and support day-to-day decision-making. Skilled in validating and structuring data for accuracy, and in presenting KPI insights in a way that is accessible to both technical and non-technical audiences. Based in Dubai and open to full-time opportunities with employer sponsorship.

CORE TECHNICAL SKILLS

- **Advanced Excel:** XLOOKUP, INDEX/MATCH, PivotTables, Slicers, Timelines, Conditional Formatting, Excel PivotCharts, **Google Sheets**
- **Power BI:** DAX measures, Power Query, data modelling, interactive dashboards,
- **SQL:** MySQL, MS SQL Server, SQLite — joins, aggregations, subqueries, window functions, data extraction and transformation
- **Python:** Pandas, Numpy, Matplotlib
- **Data Governance:** Data quality frameworks, data integrity enforcement, KYC compliance, regulatory data standards
- **Stakeholder Communication:** KPI reporting, data storytelling, cross-functional collaboration

DATA ANALYTICS PROJECTS

Real-Time Weather & Air Quality Analytics Dashboard | *Power BI, REST API, Power Query*

- Built an automated ETL pipeline connecting a live REST API to Power BI through Power Query, handling JSON parsing and schema normalisation for a fully self-updating data feed with scheduled refresh
- Developed DAX measures for temperature KPIs and AQI classification, with dynamic conditional-threshold formatting across a multi-page dashboard

HR Analytics — Employee Presence & Capacity Planning Dashboard | *Power BI*

- Built a Power Query ETL pipeline to clean raw attendance data (type standardisation, null handling, column merging) into an analysis-ready data model
- Created DAX measures for presence rate, work-from-home percentage, and sick leave trends, segmented by department and time period, delivered through a multi-page interactive dashboard for HR stakeholders

Coffee Sales Analysis — Interactive Sales Dashboard | *Advanced Excel*

- Built a dynamic sales dashboard using XLOOKUP, INDEX/MATCH, PivotTables, slicers, and timelines, enabling drill-down analysis by product type, country, and customer segment

- Surfaced top-performing segments and seasonal trends to support merchandising decisions

WORK EXPERIENCE

Finance Analyst Intern | Geojit Financial Services Ltd *Sep 2024 – Nov 2024*
Kerala, India

- Processed and validated client KYC documentation to enforce data accuracy and regulatory compliance
- Monitored daily equity price movements and translated them into records
- Tracked and maintained portfolio datasets for equity trading operations, ensuring accuracy across daily updates
- Compared mutual fund schemes across performance metrics, risk ratings, and historical returns to support investment analysis

Market Analyst Intern | Emerge Business Group *May 2024 – July 2024*
Kerala, India

- Managed digital advertising campaigns on Google Ads and Meta
- Built and maintained Excel dashboards tracking campaign KPIs, including reach, engagement rate, conversion rate, and cost-per-lead
- Consolidated marketing data from multiple digital platforms into a single structured dataset for analysis
- Prepared weekly performance reports with clear visualisations of campaign results.

CERTIFICATIONS

- Microsoft Office Specialist – Excel Associate (MOS)
- Microsoft Power BI Data Analytics
- Advanced Power BI: DAX Language, Formulas & Calculations
- Microsoft Power Query
- SQL Essential Training
- Macros and VBA for Automation

EDUCATION

Master of Business Administration — Finance & Marketing *2023 – 2025*
People Institute of Management Studies, affiliated with Kannur University — Kerala, India

Bachelor of Arts — English *2020 – 2023*
E.K.N.M Government College, affiliated with Kannur University — Kerala, India
